

# Cippenham Table Tennis Club

## Temporary parking and access solution during demolition phase of older part of school building

The usual parking area adjacent to the table tennis centre will **not** be available.

Instead, it will be necessary to park in a parking compound, established within the school's playing fields and accessible via a gate off Cippenham Lane opposite to Renaissance Bathrooms and Kitchens (part of the Long Barn complex of buildings).

To the west (left) side of the parking compound, there is a gate leading into the school grounds. Go through this gate, down a couple of small flights of steps and then turn right. After a while, turn left and follow a path until you see the school buildings in front of you. At that point, turn right until you can go no further and then turn left across a hard-surfaced sports area, and then along a path until you reach an entrance into the school's sports area on the right-hand side. Go through this door and access to the table tennis centre is immediately to the left.
